RESEARCH INTERESTS

- **Self-evolving agents**: continual and stable improvement from agent experience.
- **Scalable evaluation**: efficient, parallel, robust, and trustworthy agent evaluation.
- **Economics of AI**: token-efficient reasoning that makes capable agents viable on widely accessible models.

EDUCATION

Nanyang Technological University *Aug. 2024 – Jun. 2026*
M.Sc. in Financial Technology (Intelligent Process Automation) *Singapore, Singapore*

Beijing University of Posts and Telecommunications *Sep. 2020 – Jun. 2024*
B.Mgmt. in E-Commerce Engineering with Law *Beijing, China*

Queen Mary University of London *Sep. 2020 – May. 2024*
B.Eng. in E-Commerce Engineering with Law (dual degree) *London, UK*

PUBLICATIONS

Unified Context Evolution for LLM Agents
Zixuan Zhu, Yitong Hu, Yong Dai, Junfeng Fang, Chunyang Jiang, Senkang Hu, Yuzhi Zhao
EMNLP 2026 (Main Conference) arXiv:2606.02304

Harbor Adapters and Harbor-Index: Infrastructure and a Curated Meta-Dataset for Large-Scale Agentic Evaluation
Lin Shi, Haowei Lin, **Zixuan Zhu**, Xiaoyue Zhou, Xiang Li, . . . (112 people),
Mike Merrill, Ludwig Schmidt, Alex Shaw
Submitted to NeurIPS 2026 arXiv:2609.04298

RESEARCH EXPERIENCE

Harbor-Index *Dec. 2025 – Present*
Research Collaborator, Stanford University, advised by Prof. Ludwig Schmidt *Remote*

- Built Harbor-Index by curating 82 tasks from 6,627 candidates; led task audits and repairs, plus token-efficiency and agent-failure analysis across frontier and open models.

CollabXplorer *Sep. 2021 – May. 2023*
Research Assistant, BUPT, advised by Prof. Yi Wang *Beijing, China*

- Delivered scholar profiling, similarity search, and collaboration recommendation; recognized as a National Innovation & Entrepreneurship Project.

INDUSTRIAL EXPERIENCE

Hunyuan AI Data Department Intern *Aug. 2026 – Present*
Tencent, mentored by Lin Shi *Shenzhen, China*

- Conduct research on frontier benchmarks for AI agents.

Business Intelligence & Analysis Intern *Jul. 2025 – Oct. 2025*
SeaMoney & MariBank *Singapore, Singapore*

- Built credit-risk models for retail-credit product lines across multiple markets, supported reject-rule governance and standardization, and automated liquidity and market-risk reporting.

Data Science Intern *Apr. 2023 – Dec. 2023*
Beijing International Data Exchange *Beijing, China*

- Developed fraud-detection and demand-forecasting models for insurance and operations scenarios.

PROJECTS

Harbor ⋆5.0k *Core Maintainer*
Agent-evaluation framework from the Terminal-Bench team. Built benchmark adapters and agent integrations, developed the review bot, and led adapter review and standardization.

Transformers ⋆165k *Contributor*
Contributed Google DeepMind's TIPSv2 family of contrastive vision-language encoders to the Hugging Face Transformers library.
